5	274116	EXTRA BATTERY PACK	1
6	274181	IN-TRANSIT 12 VOLT DC AUTO CHARGER	1
7	274185	STANDARD 110 VOLT BATTERY CHARGER	1
8	274191	CANADIAN STANDARD BATTERY CHARGER	1

Power LiftKar HD

- Two Models
- Uni - straight frame - accepts dolly option for 4-wheel support.
- Fold - upper handle angle can be adjusted. Best for copiers, safes, heavy motors or any short and heavy load which would require the user to pull the load back to a very low position. The adjustable angle position on the
- Fold model allows the user to stand upright when using the truck at a very low angle.
- Innovative edge-of-step braking system - automatically applies brake when wheels are at edge of step. Helps prevent loss of load control caused by accidental rolling down steps.
- Brake can be shut off for use on level ground - prevents unwanted braking when moving over ground with an uneven surface.
- Two operating modes: single step (ascend or descend button must be pressed after each step - ideal for maximum control), or continuous climb.
- 24v quick-change battery pack - sealed maintenance-free battery.
- Two climbing speeds: 6 steps/min. or 10 steps/min.
- Average number of steps with fully charged battery:
  - 440 lbs. of cargo - 220 steps
  - 550 lbs. of cargo - 190 steps
  - 725 lbs. of cargo - 120 steps.
- Power LiftKar Options
- Part # 274103 - Snap-on toe plate equipped with 4 dual casters.
- Provides additional cargo space and the ability to move loads without tilting truck. Especially useful in confined areas.
- Part # 274102 - Fold-out rear wheel carriage (Universal model only) slides easily into position to provide 4-wheel support.
- Part # 274116 - Extra battery pack.
